

NCSSSS

National Consortium of
Secondary STEM Schools

SPONSORSHIP & ADVERTISING GUIDE

2024

“ NCSSSS brings together a diverse group of STEM professionals in an intimate atmosphere of learning and sharing ideas. This creates such a unique experience for everyone involved — unparalleled by ANY other conference we attend. People come here with one common goal: to bring STEM education to the next level for every student.

- Dan Spooner, *Anatomage*

Why NCSSSS?

NCSSSS has defined STEM education for the past 35 years.

Our members are administrators and teachers at high-performing schools and visionary districts who serve as the leaders in their states. NCSSSS member schools deliver an integrated approach to STEM education that serves as a model for programs across the US and around the globe.

If your company has products and services that support STEM education, or you want to build a future STEM workforce pipeline, we want to work with you. We are seeking sponsors and advertisers for a variety of year-round opportunities who share our long-term vision for successful partnerships that are more than a single transaction. Don't see something you like? Let us help you design a custom sponsorship/advertising package.

Our Members

Top schools like Bronx Science, Illinois Mathematics and Science Academy, North Carolina School of Science and Mathematics, and Thomas Jefferson High School for Science and Technology join dozens of other institutions that demonstrate students are engaged in authentic research and share a belief that STEM is not just one discipline, but an integrated approach throughout the curriculum.

From Congress to major corporations, NCSSSS member schools are looked to for their innovative approach to STEM and successful student outcomes. They offer the perfect opportunity to showcase your products and build partnerships that will inspire other schools to follow their lead.

NCSSSS members typically enjoy two in-person events and multiple virtual events per year where content is designed to meet the needs of Administrators, Teachers, and Students.

YEAR-ROUND OPPORTUNITIES

CONSORTIUM CONNECTS WEBINARS

Consortium Connects are professional learning webinars that are free for NCSSS Member Schools. Hosted by NCSSS staff, teachers and administrators join the live video roundtables for professional learning and sharing ideas. Consortium Connects are 45 minutes long, and typically consist of presentations for 20-30 minutes followed by time for Q-and-A. The videos are recorded and shared with our members on our website afterward.

Sponsors are encouraged to share the webinar link with their prospect lists to increase visibility and attendance at the webinar.
